SUMMARY

CS student at NUST Namibia (BCS Cyber Security, 2025–2028) and founder of MugenSoft — a developer studio building web apps, AI-powered tools, and desktop software. I ship real products, not just demos. Currently open to freelance projects, collaborations, and internships worldwide.

EXPERIENCE

Founder & Full Stack Developer

2025 – Present

MugenSoft Developer Studio

Windhoek, Namibia

- Built and deployed a real-time multiplayer chess platform (React, Node.js, Socket.io) serving live users
- Developed MUGEN — a full-featured desktop media application with YouTube/TikTok downloader, built-in player and analytics dashboard
- Built and launched personal portfolio site with Supabase backend, contact forms and guestbook
- Provide freelance web development, AI tool development, and deployment services to clients

PROJECTS

Ultimate Chess Showdown

Live

chess-project-1-y6c5.onrender.com

Real-time multiplayer chess with WebSockets, full chess rules (castling, en passant, promotion), match history, W/L/D tracking, and local sandbox mode.
